

GLUCOSE METABOLISM AGENT

- NUTRIENT PARTITIONING AGENT
- GLUCOSE DISPOSAL OPTIMIZATION
- MAXIMUM CARBOHYDRATE UTILIZATION
- SUPPORTS INHIBITION OF FAT STORAGE
- HANGOVER SUPPORT

Glycoshred™ is an advanced glucose disposal agent designed to help utilize carbohydrates to their maximum potential and help support a healthy insulin balance. Putting carbohydrates to work in the right direction and manipulating nutrients driven toward the muscle cells vs. the storage of fat is where **Glycoshred™** comes in. As an additional benefit, **Glycoshred™** utilizes Dihydromyricetin to support glucose metabolism and also aid in hangover support from the effects of alcohol. **Glycoshred™** can be used by both men and women, athletes and non-athletes looking to take their performance, conditioning, wellness and health seriously.

WARNING: Consult your physician before using this product. It is not intended for use by individuals under 18 years of age. Do not use if you have any medical condition, including but not limited to, prostate hypertrophy, cancer, heart, liver, cardiovascular, kidney, thyroid disease, high blood pressure, low HDL, or are taking any other prescription drugs. Do not use if you are pregnant or nursing. Discontinue use if you experience any adverse reaction to this product. Store in a cool, dry place. **KEEP OUT OF REACH OF CHILDREN.**

SUGGESTED USE: As a dietary supplement take one serving (1 capsule) 20 minutes prior to consuming a high carbohydrate meal consisting of 40-60 grams of carbohydrates. An additional serving (1 capsule) may be used per increase of an additional 40-60 grams of carbohydrates.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
